

TIPS FOR COLORING SHEETS

Here are some ideas I've found helpful!

- Have students keep their note sheets out as they complete the sentences.
- Allow students to color the general areas of the numbered selection.
- Encourage students to consult the sentences as they color. This will minimize coloring errors and reinforce the concepts.
- For pages that have limited color choices, encourage students to use different shades of the assigned color.
- Ask students to personalize the sheets: color with stripes, dots, or zigzags.
- Have students mark the number with the correct color before they begin their coloring sheet.
- These activities work well as station activities or as partner work.
- Save yourself time; show students the final pictures (included as a PDF) to check their work.
- Use the final products as decor in the secondary classroom!!
- Looking for research to support coloring sheets in your lesson plans? I've got you covered:
