

THE HUNGER GAMES

CHARACTER INFOGRAPHICS

How do I use Character Infographics with my students?

Character Infographics are a fun take on character maps. They are modern and allow students to present a finalized picture of a character in a neat, orderly manner.

They allow flexibility for teachers, too. Grade students on effort, creativity, information given - or any combination. Plus, they can be used any time during a novel study: to review, to emphasize a character after a specific chapter, or to analyze a character together. Use these as individual work or a cooperative learning experience. Combine the different ideas students share about characters and create a master infographic as a class, together. Since infographics are visuals, hang them to showcase student learning.

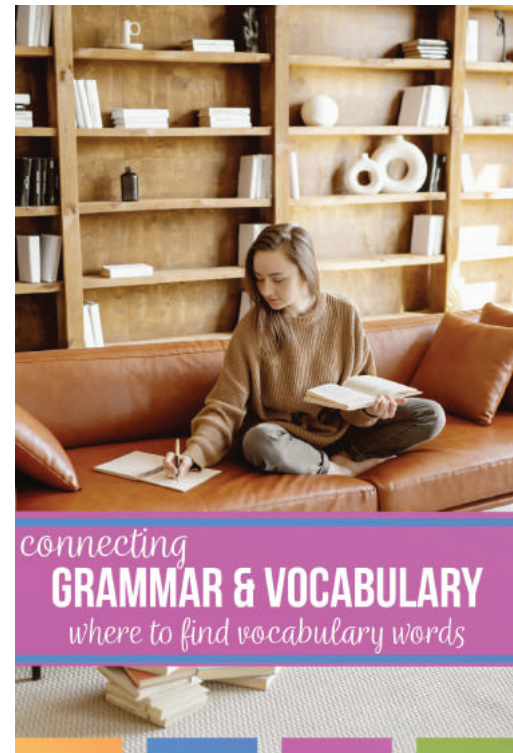

Students see infographics across the web. When they make their own for characters, students will be analyzing details and having fun, while participating in a familiar format.
